

Subject Index—Volumes 98-105

A

- Acetabular dysplasia
 - experience with innominate osteotomy (Salter) and medial displacement osteotomy (Chiari) in the treatment of, **98:133**
- Acetabulum
 - dysplastic
 - surgical treatment of the, in adolescence, **98:137**
- Acromioclavicular separations, **104:213**
- Adrenal genital syndrome
 - osteogenesis imperfecta
 - report of a case, **103:204**
- Anemia
 - sickle cell
 - bilateral total knee replacement in a patient with, **100:204**
- Anesthesia
 - digital block
 - use of hyaluronidase in, **103:93**
 - induced hypotensive
 - for total hip replacement, **101:93**
- Aneurysm
 - false, of the profundus femoris artery resulting from nail-plate fixation of intertrochanteric fracture, **100:143**
 - traumatic
 - posterior interosseous nerve compression caused by, **101:225**
- Angiography
 - the value of, in the surgical management of deep hemangiomas, **101:176**
- Ankle
 - chronic pain associated with peroneus accessories, **103:53**
 - sprained (abstract) **101:307**
 - sprains in young athletes
 - relation of severity and disability, **101:201**
- Ankle fusion,
 - an evaluation of, in children, **98:233**
 - precision posterior, **98:239**
- Antibiotics
 - the local use of, to prevent wound infection, **99:194**
- Antler
 - deer's
 - ultrastructure of intracellular mineralization in the, **99:267**

Arthritis

- antigen induced
 - the immunologic competence of regenerating synovium in, in the rabbit, **98:302**
- deforming non-erosive
 - of the hand in systemic lupus erythematosus, **100:120**
- degenerative
 - surgical treatment of, **101:4**
 - medical management of the patient with, **101:13**
- rheumatoid
 - deep radial nerve palsy associated with, **103:157**
 - results of synovectomy in children with, **101:120**
 - synovectomy and autologous vaccine for (abstract) **101:309**
 - synovectomy for, **100:125**
 - synovectomy of the knee in, **101:36**
 - tendon transfer for radial rotation of the wrist in, **100:176**
 - the pathogenesis of the subchondral pseudocysts in, **100:341**
 - use of orthoses in the management of, **102:118**
 - secondary degenerative, of the hip in the adult
 - the role of innominate osteotomy in the arrest of, **98:214**
 - septic, of the hip joint secondary to umbilical artery catheterization associated with transient femoral and sciatic neuropathy, **100:190**
- Arteriosclerosis
 - fate of the marrow embolism and the development of pulmonary
 - experimental pulmonary bone marrow embolism, **100:337**
- Artery
 - profundus femoris
 - false aneurysm of the, resulting from nail-plate fixation of intertrochanteric fracture, **100:143**
- Arthrodesis
 - the role of, in the reconstruction of the knee, **101:82**

Subject Index—Volumes 98-105

A

- Acetabular dysplasia
 - experience with innominate osteotomy (Salter) and medial displacement osteotomy (Chiari) in the treatment of, 98:133

 - precision posterior, 98:239
- Antibiotics
 - the local use of, to prevent wound infection, 99:194
- Antler
 - deer's
 - ultrastructure of intracellular mineralization in the, 99:267

Arthritis

- antigen induced
 - the immunologic competence of regenerating synovium in, in the rabbit, 98:302
- deforming non-erosive
 - of the hand in systemic lupus erythematosus, 100:120
- degenerative
 - surgical treatment of, 101:4
 - medical management of the patient with, 101:13
- rheumatoid
 - deep radial nerve palsy associated with, 103:157
 - results of synovectomy in children with, 101:120
 - synovectomy and autologous vaccine for (abstract) 101:309
 - synovectomy for, 100:125
 - synovectomy of the knee in, 101:36
 - tendon transfer for radial rotation of the wrist in, 100:176
 - the pathogenesis of the subchondral pseudocysts in, 100:341
 - use of orthoses in the management of, 102:118
 - secondary degenerative, of the hip in the adult
 - the role of innominate osteotomy in the arrest of, 98:214
 - septic, of the hip joint secondary to umbilical artery catheterization associated with transient femoral and sciatic neuropathy, 100:190
- Arteriosclerosis
 - fate of the marrow embolism and the development of pulmonary
 - experimental pulmonary bone marrow embolism, 100:337
- Artery
 - profundus femoris
 - false aneurysm of the, resulting from nail-plate fixation of intertrochanteric fracture, 100:143
- Arthrodesis
 - the role of, in the reconstruction of the knee, 101:82

- compression, of the wrist
 - a consecutive series of 23 cases, 99:146
- triple subtalar, 99:175
- Arthrography
 - of the metacarpophalangeal joint, 103:91
 - subtraction technique in
 - for complication of total hip replacement fixed with radiopaque cement, 101:105
- Arthrogryposis multiplex congenita
 - the treatment of scolioses in, 103:191
- Arthroplasty
 - cup
 - pathologic changes in the idiopathic painful, 101:249
 - hip
 - retain the psoas attachment and mobilize early, 103:26
 - prosthetic
 - of the hand, 104:9
 - tibial plateau for the arthritic knee
 - the role of, 101:000
 - total hip
 - radiographic abnormalities caused by postoperative infection following, 99:94
 - total knee
 - marking pin dislocation in, 99:137
- Arthroscopy
 - the role of, in the management of the arthritic knee, 101:28
- Autoinduction
 - piezoelectricity and, 100:247

B

- Bioelectrical impedance plethysmography
 - as an investigative tool in orthopaedic surgery, 99:203
- Biopsy
 - closed skeletal, 103:75
- Blastomycosis osteomyelitis, 100:225
- Blood supply
 - and the rate of healing of tibial fractures, 105:11
 - periosteal
 - the role of, in the healing of fractures of the tibia, 105:27
 - tibial
 - in relation to fracture healing, 105:34
- Bone
 - cortical
 - zonal osteons in, 100:356
 - how to determine healing of by stethoscope, 103:95
 - metabolism
 - the role of zinc in, 103:212
 - reaction around screw threads (abstract), 101:305

- stored in deep-freeze bone banks postciples to monitor, 103:97
- tissue culture studies of
 - from the fractured hip, 101:281
- treatment of giant cell tumors of, 100:232
- Bone architecture
 - mosaic
 - direct current induced, 99:298
- Bone cement
 - new improved (MMA-TBB), 100:279
- Bone cysts
 - simple fractured
 - the fate of, 101:302
 - unicameral
 - in the scapula, 103:80
- Bone density
 - detection of alterations in, 102:245
- Bone grafting
 - revascularization after
 - aseptic necrosis of the talus, 101:245
- Bone mineral
 - loss of, after Colles fracture, 101:229; 102:194
- Bony union
 - an approach to, 103:95
- Boutonneire deformity
 - the problem of, 104:116
- Bracing
 - cast, 102:159
 - flexion
 - for low back pain, 103:65
 - fracture, 102:152
 - low back, 102:126
 - lower extremity
 - kinesiology of, 102:18
 - molded plastic, 102:46
- Bunnell, Sterling, 103:12

C

- Calcification
 - initial locus of, in chondrocytes, 98:288
- Calcification
 - physical biochemistry of, 99:246
- Calcium
 - histochemical localization of
 - in electron micrographs of the epiphyseal growth plate with K-Pyroantimonate, 100:406
 - urinary excretion of
 - an analysis of the distribution of values in relation to sex, age and calcium deprivation, 101:267
- Cardiovascular effects of methylmethacrylate on dogs, 100:265

- Cartilage
 articular
 acid hydrolase in the, of the patella, 99:293
 osteoarthritic hip
 quantitative histological changes in, 103:269
 human normal and osteoarthritic articular
 a scanning electron microscope study of, 103:262
 repair
 study of electrochemical enhancement of articular, 102:251
 Cast bracing, 102:159
 Cast collar, 103:71
 Casting system
 new fiber glass, 103:109
 Catgut
 plain
 for skin closures, 103:97
 Cell
 bone
 structure and function
 effects of parathyroid hormone on, 100:392
 Cement
 acrylic
 stabilization of pathologic fractures with, 101:182
 radiopaque
 subtraction technique in arthrography for complication of total hip replacement fixed with, 101:105
 Cerclage
 percutaneous
 of tibial fractures, 105:276
 Cerebral palsy
 genetic syndrome associated with, 99:2
 new concepts in orthotic case, 102:100
 Charnley
 total hip replacement
 clinical and biomechanical analysis of gait following, 99:70
 Chemonucleolysis
 early, interim and long term observations on, in 876 patients with special comments on the lateral approach, 99:64
 Chondrocytes
 initial locus of calcification in, 98:288
 Chondrolysis
 of the hip, 103:136
 following Southwick osteotomy for severe slipped capital femoral epiphysis, 99:120
 Chondrosarcoma
 ultrastructure of, 100:378
 Circadian rhythm
 allograft induced osteinduction in rats, 103:252
 Classics
 index of selected, 100:19
 Claw toes
 following tibial fracture, 103:47
 Clinical Orthopaedics and Related Research
 History of, 100:11
 Clubfoot
 congenital
 early surgical treatment of, 101:242, 102:200
 peroneal nerve palsy of, as a complication of treatment, 101:242
 removing plaster from, 103:63
 Coagulation
 disseminated intravascular
 in patients undergoing orthopedic surgery, 102:174
 Communication gap, 103:103
 Contamination
 effects of a surgical horizontal unidirectional filtered air-flow unit on wound bacterial, and wound healing, 101:99
 Convex pes valgus
 congenital, 99:168
 Corticosteroid injection
 effects on the biomechanical properties of rabbit patellar tendons, 100:345
 Cysts
 mucous
 conservative treatment of, 103:88
- D**
- Diazepam
 double-blind evaluation of, sodium pentobarbital and placebo as adjunctive premedicants prior to diskography, 100:242
 Disk
 lumbar
 the McElvinney approach to the, 103:66
 Disk degeneration
 lumbar
 myelographic patterns in, 99:18
 Diskography
 double-blind evaluation of diazepam, sodium pentobarbital and placebo as adjunctive premedicants prior to, 90:242
 Disease(s)
 of the hip, knee and ankle joint with their deformities treated by a new and efficient method (classic) 102:4

Dislocation

congenital, unilateral coxofemoral,
contributions to the radical treatment of,
98:5

recurrent

of the elbow in children, 100:74

Don't sit-squat! 103:104

Dyschondrosteosis

produced in the rat fetus by excessive
vitamin A, 102:217

Dysplasia

hip

observation of the gluteal fold in, 103:19
spondyloepiphyseal and spondylometaphy-
seal in children, 100:78

Dystrophy

renal

a calcium kinetic approach to the prob-
lem of, 100:315

E

Editorial comment, 100:2

EHDP, see Ethane-1-Hydroxy-1, 1-Diphos-
phonate

Elbow

reduction of posterior dislocation of the,
by traction on the dangling arm, 103:106
recurrent dislocation of the
in children, 100:74

Electromyography of hallus valgus, 101:220

Electron microscopy

high resolution transmission

observations on embryonic chick-bone
crystals by, 105:00

Embolism

experimental pulmonary bone marrow

fate of marrow emboli and the develop-
ment of arteriosclerosis, 100:337

fat

experimental production of vascular hypo-
tension and bone marrow and, with
methylmethacrylate cement, 102:227

Embryonal rhabdomyosarcoma

of the hand, 100:238

Endoplasmic reticulum

size and morphology in bone disorders, 101:
291

Eosinophilic granuloma

of the spine: an unusual radiographic pre-
sentation, 99:57

Epiphysis

slipped capital femoral

the triangular sign in the early diagnosis,
103:16

Ethane-1-Hydroxy-1, 1-Diphosphonate

effect on bone turnover in adult dogs, 100:
364

Evaluation

functional

of 18 adult myelomeningocele patients,
100:101

Extremity

lower

circumferential measurement of a, 103:51
rationale for orthotic prescription in, 102:
32

F

Fasciotomy

subcutaneous

quickly made, 103:98

Femoral heads

morphopometric analysis of 29 osteoarthritic
and 26 normal human, 103:269

Femur

biomechanical influence of the innominate
osteotomy on the growth of the upper
part of the, 98:39

fractures of the distal third of

treated by internal fixation, 100:160

infected Kuntcher nailing of, (abstract) 101:
307

simple method of inserting a Jewett nail
into the neck of the, 103:21

Fentanyl-droperidol

intravenous

a dynamic approach to problems of hand
function using local anesthesia supple-
mented by, 104:112

Ferciot tiptoe splints, 103:48

Fiberoptic light

use of, to remove methylmethacrylate, 103:
23

Fibroma(s)

fractures through large nonossifying, 103:82

Fibula

boot-top fractures of the, 101:198

Finger(s)

congenital ulnar deviation

with clubfoot deformities, 104:200

human

balance and kinetics under normal and
pathologic conditions, 104:92

long and ring

congenital abnormality of the flexor digi-
torum profundus a cause of flexion de-
formity, 104:206

Finger joint implant,

complication of, 98:231

- Fixation
 internal
 fractures of the distal third of the femur treated by, **100:160**
 nail plate
 false aneurysm of the profunda femoris artery resulting from
 of intertrochanteric fracture, **100:143**
 Flatfoot
 rigid
 in the young adult, **104:244**
 Flexor digitorum profundus
 congenital abnormality of
 a cause of flexion deformity of the long and ring fingers, **104:206**
 Fluoride
 effect of, on phosphatase activity and ash content of metaphyseal bone of the rat, **100:387**
 Forearm bones
 salvage procedures for defects in the, **104:183**
 Fracture bracing, **102:152**
 Fracture motion
 tibial
 three dimensional measurement by photogrammetry, **105:128**
 Fractures
 and joint injuries, **105:4**
 A.O. Compression of intertrochanteric (abstract) **101:306**
 boot-top, of the fibula, **101:198**
 Colles'
 loss of bone mineral after, **101:229; 102:194**
 compression fixation of long bone, (abstract) **101:307**
 epiphyseal
 in children (abstract), **101:305**
 femoral shaft
 ambulant, nonoperative management of
 Part I, **100:195**
 Part II, **100:204**
 closed nailing of, (abstract), **101:306**
 healing
 tibial blood supply in relation to, **105:34**
 impacted, of the hip
 infected diaphyseal
 an evaluation of the results of medullary nailing in the treatment of, **100:151**
 internal rotation for diagnosis of, **103:20**
 inter-fragmentary compression in internal fixation of (abstract), **101:308**
 intertrochanteric
 complications of fixation, **101:110**
 false aneurysms of the profunda femoris artery resulting from nail-plate fixation of, **100:143**
 lower end of the humerus (Abstract), **101:309**
 Monteggia
 with lateral displacement of radial head (abstract) **101:309**
 of the distal radius
 classification of, (abstract) **101:308; 103:163**
 of the hip
 with simultaneous fractures of the shaft of the femur on the same side (abstract) **101:308**
 of the radial head in children (abstract), **101:307**
 of the tibia
 the role of periosteal blood supply in the healing of, **105:27**
 compression in the surgical treatment of, **105:00**
 open reduction (abstract), **101:307**
 of the tibia and fibula
 treated by casts and transfixing pins, **105:175**
 of the tibial shaft
 a critical evaluation of treatment alternatives, **105:81**
 open tibial
 management of, **105:151**
 pathologic
 stabilization of, with acrylic cement, **101:182**
 principles of treatment (abstract), **101:308**
 through large non-ossifying fibromas, **103:82**
 tibial
 functional bracing of, **105:198**
 percutaneous cerclage of, **105:276**
 the role of soft tissues in the stabilization of, **105:114**
 double plating of, **105:236**
 closed and open management of, **105:141**
 blood supply and the rate of healing of, **105:11**
 blind intramedullary nailing for, **105:267**
 tibial shaft
 early weight-bearing treatment of, **105:163**
 trans-condylar
 of the talus (abstract), **101:307**
 Fusion
 lumbosacral
 cytomegalovirus infection after, **100:108**

Fusion of the scoliotic spine in young children
effect on prognosis and growth, 101:136

G

Gait

clinical and biochemical analysis of, following Charnley total hip replacement, 99:70
in childhood
the natural history of torsion and other factors influencing, 99:12

Game-keeper's thumb

treatment by a new operation, 103:167

Gangrene

gas, and the hyperbaric chamber, (abstract), 101:306

Giant cell tumor

report of a case of *Salmonella paratyphi* osteomyelitis simulating a, 99:190

Gluteal fold

observation of, in hip dysplasia, 103:19

H

Hallux valgus

electromyography of, 101:220

Hand fractures, (abstract), 101:306

Hand function

a dynamic approach to problems of, using local anesthesia supplemented by intravenous fentanyl-droperidol, 104:112

Hand surgery

advances in, (editorial comment), 104:2

Hand

an overview on new procedures in surgery of the, 99:154

burned

rehabilitation of the, 104:162

deforming non-erosive arthritis of the

in systemic lupus erythematosus, 100:120

embryonal rhabdomyosarcoma of the, 100:238

infections of the (classic), 104:3

metastatic lesions of the, and forearm, 101:167

mucopolysaccharide disorders, 104:191

prosthetic arthroplasty of the, 104:9

ring injuries, 104:175

vascular lesions in the

current management, 100:111

Harrington instrumentation

for spinal injuries (abstract), 101:309

Hemangioma

of the extremities

review of 35 cases, 101:154

the value of angiography in the surgical management of deep, 101:176

Hemiarthroplasty

femoral condylar

of the knee, 101:68

Hemiparesis

lower extremity management of, 102:133

Hinge

modified subluxation

for use in hemophilic knee flexion contractures, 103:50

Hip

adult, atrophy of, 99:86

cartilage

quantitative histological changes in osteoarthritic, 103:269

Charnley total replacement

clinical and biomechanical analysis of gait following, 99:20

chondrolysis of the, 103:136

following Southwick osteotomy for severe slipped capital femoral epiphysis, 99:120

congenital

comparison of pelvic osteotomies for the surgical correction of the, 98:104

congenital dislocated

pericapsular osteotomy of the ilium for the treatment of, 98:41

innominate osteotomy, 98:183

a comparison of the innominate and pericapsular osteotomy in the treatment of, 98:124

the biomechanics of, and their treatment, 98:32

congenital dislocation and subluxation of the innominate osteotomy for a follow-up study, 98:171

congenital dysplasia of the

radiographic follow-up of Salter innominate osteotomy for, 98:210

dislocation, irreducible

treatment of, by Chiari osteotomy, 98:151

dysplasia

observation of the gluteal fold in, 103:19

fractured

tissue culture studies of bone from the 101:281

human

embryology of the, 98:8

internal rotation for diagnosis of impacted fracture of the, 103:20

joint exposures

anatomical basis of, 98:27

metal-on-plastic total joint

variables affecting the friction and wear of, 100:270

- total reconstruction
 - angular cup alignment in, 103:22
 - total replacement
 - subtraction technique in arthrography for complications of
 - fixed with radiopaque cement, 101:105
 - induced hypotensive anesthesia for, 101:93
 - with and without trochanteric osteotomy, 103:133
 - anesthetic experience with, 99:78
 - total replacement without cement, experience with, 103:24
 - total surface replacement
 - in the dog, 100:256
 - total, surgery
 - use of stretch panty hose postoperatively for, 103:26
 - total unit with replaceable non-cemented parts, 99:103
 - Hormone
 - parathyroid
 - effects of, on bone cell structure and function, 100:392
 - Humerus
 - fractures of the lower end (abstract), 101:309
 - Hyaluronidase
 - in digital block anesthesia use of, 103:93
 - Hyperparathyroidism
 - in an elderly adult with hypophosphatasia, 101:216
 - Hypophosphatasia
 - hyperparathyroidism in an elderly adult with, 101:216
 - Hypotension
 - vascular
 - experimental production of, and bone marrow and fat embolism by methylmethacrylate cement, 102:227
- I**
- Inevitable editor, 100:4
 - Infection
 - cytomegalovirus
 - after lumbosacral fusion, 100:108
 - of the hand (classic), 104:3
 - postoperative, following total hip arthroplasty
 - radiographic abnormalities caused by, 99:94
 - the local use of antibiotics to prevent wound, 99:194
 - Injection sites
 - pinpointing, 103:39
 - Injuries
 - acute acromioclavicular, 103:143
 - cervical spine
 - mechanisms of (abstract), 101:309
 - fracture and joint, 105:4
 - multiple single extremity (abstract), 101:309
 - spine
 - Harrington instrumentation (abstract), 101:309
 - tarsometatarsal joint (abstract), 101:309
 - Injury rates in high school football
 - a comparison of synthetic surfaces and grass fields, 99:131
 - Ilium
 - pericapsular osteotomy of the
 - for the treatment of congenital dislocated hip, 98:41
 - Instruments
 - sharp, 103:101
 - Intramedullary nail
 - method to cut and remove in situ bent, 103:30
 - Intramedullary rod
 - stuck, 103:29
- J**
- Jewett nail
 - simple method of inserting into the neck of the femur, 103:21
 - Joint
 - ankle
 - traumatic lesion of the
 - the supination-external rotation mechanism, 100:219
 - debridement
 - surgical treatment of degenerative arthritis, 101:4
 - dry
 - inserting a nail into, 103:37
 - fixation of loose bodies in, 100:309
 - hip
 - septic arthritis of the, secondary to umbilical artery catheterization associated with transient femoral and sciatic neuropathy, 100:190
 - metacarpophalangeal
 - arthrography of the, 103:91
 - prosthetic devices for partial replacement of damaged small, an experiment in dogs, 100:292
 - proximal tibiofemoral
 - subluxation of the, 101:186
 - proximal tibiofibular
 - the anatomy and function of the, 101:186
 - sacroiliac
 - movement of the, 100:370
 - pyogenic infections of the
 - in children, 100:96

K

Kidney

- and disease, 98:258
- metabolism in health
- the role of, and vitamin D

Knee

- an apparent loose body in the, 103:33
- arthritic
 - surgery of the, 101:2
 - the place of tibial plateau arthroplasty for the, 101:74
 - the role of patelloplasty and patellectomy in the, 101:40
 - the role of the arthroscopy in the management of, 101:28
- bilateral total replacement in a patient with determining alignment, 103:32
- sickle cell anemia, 100:204

Osteopenia in alcoholism, 99:201

Osteoporosis

Schmorle's nodes and, 104:275

Osteosynthesis

effects of methylmethacrylate in, 105:283

Osteotomy

angulation

of above-elbow stumps, 104:232

calcaneal

long-term follow-up observations on, 99:181

chiarì

medial displacement, 98:146

results of, 98:162

treatment of irreducible hip dislocation by, 98:151

high tibial, 104:239

incomplete pericapsular (Pemberton) and innominate (Salter)

a comparative analysis, 98:116

innominate

a comment from the periphery on, 98:195
biomechanical influence of the, on the growth of the upper part of the femur, 98:39

congenital dislocation of the hip, 98:183
for congenital dislocation and subluxation of the, 98:171

in the treatment of congenital dislocation and subluxation of the hip
the experience of five orthopaedic surgeons, 98:178

its role in the arrest of secondary degenerative arthritis of the hip in the adult, 98:214

its role in the treatment of congenital dislocation and subluxation of the hip, 98:198

radiographic follow-up of, for congenital dysplasia of the hip, 98:210

the first 15 years' personal experience, 98:72

medial displacement (Chiari)

experience with innominate osteotomy (Salter) and, in the treatment of acetabular dysplasia, 98:133
of the pelvis, 98:55

metatarsal

for bunionette deformity, 100:171

pelvic

comparison of, for the surgical correction of the congenital hip, 98:104

indications for the various types of, 98:111

pericapsular

of the ilium for the treatment of congenital dislocated hip, 98:41

proximal tibial, 103:46

subtrochanteric valgus

a simple method for achieving, in infants and children, 103:18

tibial

for the treatment of degenerative arthritis of the knee, 101:46

trochanteric

total hip replacement with and without, 103:133

P

Palsy

deep radial nerve

associated with rheumatoid arthritis, 103:157

drummer's, 103:93

Pantopaque

in myelography

improved technique for injecting and removing, 103:64

Patella

acid hydrolases in the articular cartilage of the, 99:293

lateral release of the, 103:40

subluxation of the

apprehension test for, 103:39

tendons

corticosteroid injection effects on the biomechanical properties of rabbit, 100:345

Patellectomy

an alternate technique, 103:170

the role of, in the arthritic knee, 101:40

Patelloplasty

the role of, in the arthritic knee, 101:40

Pelvis

medial displacement osteotomy of the, 98:55
osteotomy of the (editorial) 98:2

Peritendon adhesion lyser

a potential aid in tendon repair, 98:307

Peroneal nerve palsy

of clubfoot as a complication of treatment, 101:242

- Peroneous accessorius
